

ANTIMUSSOL C-1 LIQUID

Antimussol C-1 liquid is formulated to meet today's most demanding needs. This non-silicone defoamer is supplied as a clear liquid that is stable under normal storage conditions. This highly effective product can be used as is, or diluted with water.

PROPERTIES:

Appearance:	Clear light yellow liquid
Specific gravity:	0.85 (7.0 lbs/gallon)

APPLICATION:

If dilution is required, simply add clean water to product at room temperature to form a milky solution. No special care is required, and the product should dilute readily. In general, all defoamers should be evaluated carefully under the anticipated usage conditions. For most applications: 1 g/l active Antimussol C-1 liquid will effectively defoam most processing solutions.

PRECAUTIONS:

This product should not be added to dye baths.

Recommendations, notices or instructions as to handling, use, storage or disposal of this product, including its use alone or in combination with other products, or as to any apparatus or process for its use are based upon information believed to be reliable. No liability is taken with respect to any such recommendations or instructions. Sole and exclusive warranty is that products comply with published chemical and physical specifications as provided on the certificate of analysis. No other warranties, either express or implied are given.
